# BREAKFAST

# ROUNDTABLE DISCUSSION

How is modern threat intelligence impacting/enhancing the cyber risk management practices of our clients and how is it impacting the service we provide our clients and the way in which cyber risks are assessed and underwritten

What tools, technologies and data sources are having the greatest impact on our clients' ability to protect themselves? How do these tools and technologies impact our underwriting capabilities?

# CONCLUSION

**Roger Oldham**

CEO & Founder  
**LMF**

# THANKS FOR COMING!
