

LONDON MARKET FORUMS
BRINGING INSURANCE PROFESSIONALS TOGETHER

TECHNOLOGY & INNOVATION VIRTUAL CONFERENCE

LIVE INTERVIEWS * KEYNOTE SPEAKERS * POLLING * LIVE CHAT

DAY 3 - POLL EMERGING TECHNOLOGIES & INNOVATION LOOKING TO THE FUTURE

1 Innovation has never been a word “commonly” used in EC3 but how Innovative would you say your firm really was when it comes to either changing processes or adopting new technologies?

2 Artificial intelligence is beginning to reshape all aspects of our lives - how ready is your firm to embrace this revolution, not only from the changes it brings in our workplace, but to the impact it will have on the risks we insure?

3 Our research across the many events we hold, and our own frontline experience, tells us that our “people” can be a barrier to the successful implementation and delivery of change, but what do you believe is the root cause of this resistance?

4 Do you think that COVID19 and the extended period of remote working will change the perception of technology as a vital business enabler?
